FRANK F. WEDEKIND---APPLIANCES

(SEE PAGE X)

GASTRIC JUICE

is known to have certain definite properties and to effect certain definite results in the complex process involving the digestion and assimilation of food. All these properties and activities are presented in

ESSENCE OF PEPSINE—FAIRCHILD,

the gastric juice extract. As an extract of the gastric juice, Essence of Pepsine, Fairchild, is antiseptic, digestive, active in the two well-known enzymes—proteolytic and milk-curdling.

The ultimate importance of gastric normality is realized when it is considered that proper gastric digestion must precede proper intestinal digestion, and just here appears the indication for ESSENCE OF PEPSINE, FAIRCHILD, as a practical therapeutic resource in gastric disorders and deficiencies.

FAIRCHILD BROS. & FOSTER

New York

Especially designed for and peculiarly adapted to the rational treatment of

INTESTINAL

AUTO-TOXEMIA

its causative errors and pathologic results

OLIVOINT

"Ointment of Olives"

Pure Olive Oil the Principal Ingredient

Made in California, the Home of the Olive, in the Laboratory of the

Olivoint Chemical Company
San Francisco, U. S. A.

For the use of those who practice the Healing Art, wheresoever dispersed throughout the world.

Packed specially for the Physician's valise; a glass jar in a screw-cap wooden box.

Fac-simile of original package sent to any physician on request.

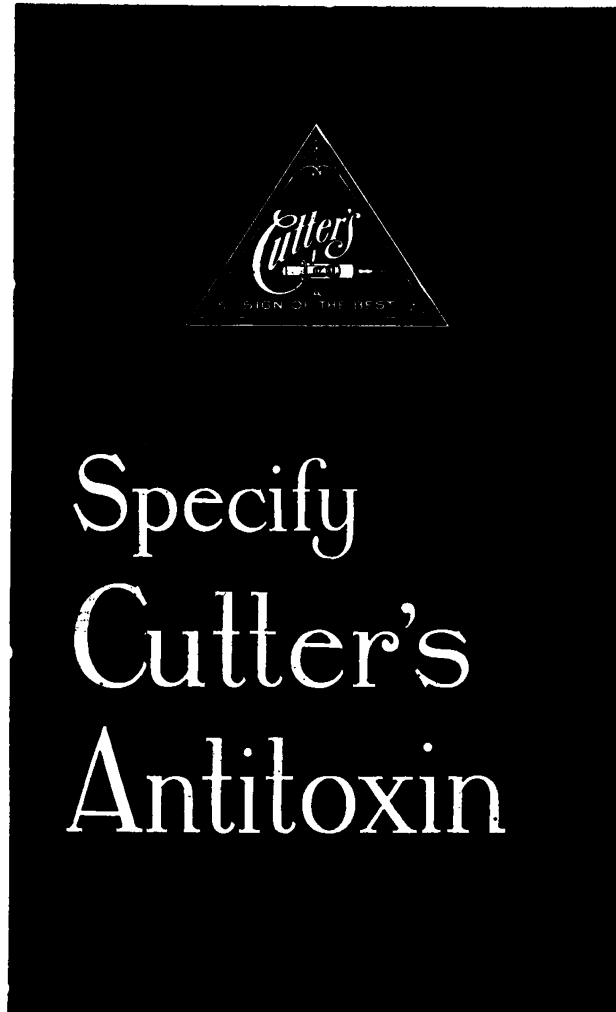

A. M. A. Principles of Ethics.

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

Encourage Home Industry

What the Pacific Coast most needs is not so much new manufacturing enterprises as the support and upbuilding of those we have. Literally millions go East every year that should be kept in circulation at home and that would immeasurably advance the prosperity of the whole coast.

We Cordially Solicit Your Support

We wish to call your special attention to our new Antitoxin syringe with **flexible needle connection**. It is positively the most convenient and the easiest to use syringe yet devised. All that is required is to slip off the rubber cap from the container and slip on the flexible needle connection and the syringe is ready to use.

The Cutter Laboratory

U. S. Government License No. 8

Berkeley, California

A. M. A. Principles of Ethics.

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

OBSERVE

That the indications for **GARDNER'S SYRUP
AMMONIUM HYPOPHOSPHITE**

are

Laryngitis, Pharyngitis, Bronchitis and Minor Coughs.

That you will not have to prescribe opiates or anodynes
in order to obtain the desired action.

That it is an active stimulating expectorant.

NOTE

That it will not be dispensed unless you specify
"GARDNER".

REMEMBER

That it is made from chemically pure Ammonium
Hypophosphite, sixteen grains to the fluid ounce.

That it is palatable.

Samples and literature will be gladly sent you, upon
request.

Firm of R. W. GARDNER,

P. O. Box 1525,

New York City.

Mulford's Antitoxin and the New Syringe

Advantages of New Syringe: ASEPSIS, contamination impossible.

Positive Working: The metal plunger screws into the rubber plug, adjusting pressure and making action positive.

Metal finger-rest with rubber guard at top of syringe prevents any possibility of syringe breaking or injuring operator's hand.

Needle attached with flexible rubber joint permits motion of patient without danger of tearing the skin—a great advantage in administering to children.

Our new adjustable rubber packing possesses great advantages; it is readily sterilized, does not harden, shred, absorb serum or become pulpy.

Simplicity and accuracy—no parts to get out of order.

Mulford's Antitoxin is Accepted Everywhere as THE STANDARD

The higher potency enables us to use much smaller syringes.
Minimum bulk—maximum therapeutic results

Brochures and Working Bulletins sent upon request

*"I now specify
Soft Mass Pills P.D.&Co.
 exclusively"*

Therapeutic Notes (Sept. 1910) tells of a physician who had prescribed a certain brand of A. S. and B. pills for years, under the impression that no others would give him equal satisfaction. Casually he learned of our Soft Mass Pill No. 984 (A. S. and B.). He tried it. Note what he says:

"I am getting incomparably better results from your Soft Mass A. S. and B. pill than I did from Blank's hard pills. There is absolutely no comparison between them. I now specify Soft Mass Pills, P. D. & Co., exclusively."

Our Line of Soft Mass Pills.

(Chocolate-coated except No. 892.)

No. 892—Ferrous Carbonate (Blaud), 5 grs., round, uncoated.
 No. 967—Cathartic Compound, U. S. P. Eighth Revision.
 No. 968—Cathartic Compound, Improved.
 No. 969—Quinine Sulphate, 2 grs.
 No. 970—Cascara Compound No. 3 (Dr. Hinkle).
 No. 971—Ferrous Carbonate (Blaud), 5 grs., U. S. P. Eighth Revision.
 No. 975—Cholelith (round).
 No. 977—Ferrous Carbonate (Blaud), Modified.
 No. 981—Ferrous Carbonate (Blaud) Compound, B "C."
 No. 982—Ferrous Carbonate with Nux Vomica.
 No. 983—Blaud and Strychnine Compound, B "B."
 No. 984—Aloin, Strychnine and Belladonna, B "A."
 No. 985—Aloin, Strychnine and Belladonna Compound, N. F.
 No. 986—Cathartic Compound Granules, $\frac{3}{4}$ gr.

No. 987—Emmenagogue, Improved.
 No. 988—Evacuant.
 No. 990—Camphor, Opium and Lead Acetate.
 No. 991—Camphor, Opium and Tannin.
 No. 992—Opium and Camphor, N. F.
 No. 993—Quinine, Iron and Zinc Valerianates.
 No. 994—Quinine Valerianate, 2 grs.
 No. 995—Salol, $2\frac{1}{2}$ grs.
 No. 996—Salol, 5 grs.
 No. 997—Salol and Phenacetine.
 No. 998—Warburg Tincture, N. F., representing $\frac{1}{2}$ fluidrm.
 No. 999—Warburg Tincture, N. F., representing 1 fluidrm.
 No. 1000—Warburg Tincture without Aloes, N. F., representing 1 fluidrm.
 No. 1001—Alophen.

NOTE.—In the soft-mass process no heat is applied, hence such volatile substances as camphor, the valerianates, the essential oils, etc., are preserved in full measure.

Soft Mass Pills (P. D. & Co.) dissolve readily in the digestive tract. They are attractive in appearance. They keep well. They are absolutely true to formula. Ask your druggist to dispense them on your prescriptions.

NEW YORK

SUPRARENALIN

Its Superiority and the Reason

The vast superiority of Suprarenalin Solution places it in front, and this superiority is due to the fact that it is made from an absolutely ash-free crystalline active principle of the suprarenal substance. It is free from impurities, such as phosphates, etc. It is positively free from chemicals, like chloral and its derivatives. It is only a solution of Suprarenalin plus 7-10 of 1 per cent. chlorid of soda.

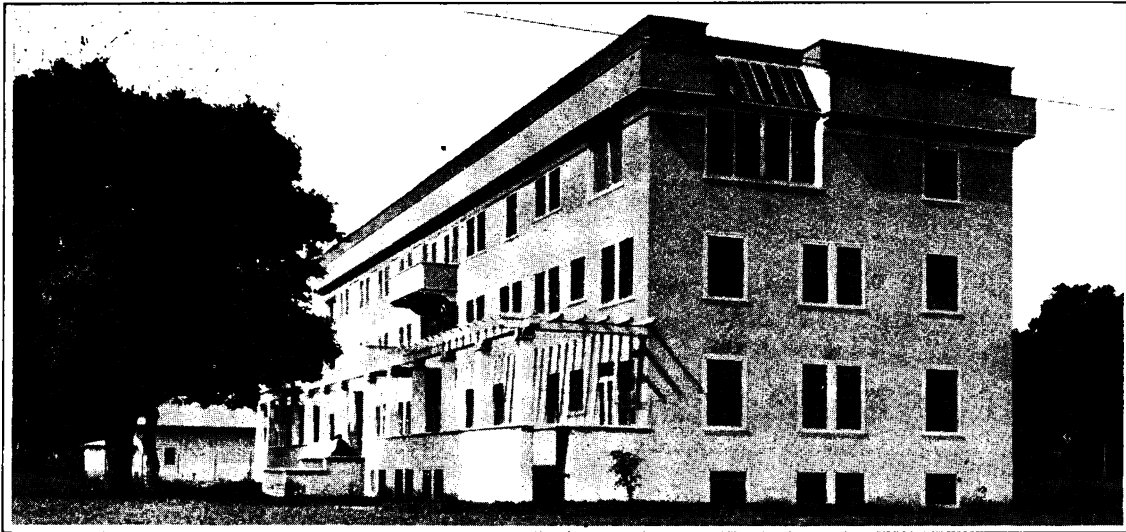

Suprarenalin Solution possesses the greatest keeping qualities of anything of the sort, American or European, natural or synthetic. Suprarenalin Solution is easily sterilized, as it may be boiled repeatedly.

SUPRARENALIN SOLUTION	1:1000
Suprarenalin Ointment	1:1000
Suprarenalin Inhalant	1:1000
Suprarenalin Triturates	1-70 of a grain

Absolutely Pure

Without Any Preservatives

WHY USE ACTIVE-PRINCIPLE GRANULES?

BECAUSE they convey the actual medicinal element of the drug freed from all inert matter.
BECAUSE they are in every single instance accurate in dosage and true to label.
BECAUSE they are more permanent than fluid medicines can possibly be.
BECAUSE they are easy to take—acceptable to the most hard-to-please patient.
BECAUSE they are—by reason of their small size and compactness—easy to carry and dispense.
BECAUSE they disintegrate quickly in the gastric fluids—most pills and tablets do not.
BECAUSE they produce a precise effect and deliver results in all cases where results can reasonably be expected.

Ask us to send you a 6-vial case of assorted granules by way of introduction; and also a 300-page book telling how to use the alkaloids.

Customary Flannels

Customary Colds

At this time of the year it is the custom to put on Flannels (woolen underwear) to protect the body from colds. Yet the colds are as customary as the Flannels! Not in spite, but because of them.

The Dr. Deimel Undergarments are in every respect the opposite of Flannels. They afford genuine protection and safety in the severest climate and season. They guard against chills and render the wearer free from all ills due to a weakened skin, such as colds, catarrh, bronchitis and rheumatism.

ROBERT A. PEERS, M. D., or MR. J. E. TADE,

Colfax, Calif.

1001 K Street, Sacramento.

Mater Misericordiæ Hospital

Sacramento, California

CONDUCTED BY SISTERS OF MERCY

The best equipped hospital in Northern California, numbering among its patrons the most eminent medical and surgical talent in the State.

The hospital has a large class of nurses in training; has Sisters in charge in each department, and a Resident Physician to watch over and superintend the care of the patients. During the past year a new wing, consisting of thirty-five rooms, has been added, and many improvements have been made, such as the establishing of a maternity ward at a flat rate of \$25 per week.

The Surgery, located in a separate building, has been entirely remodeled—tiles being substituted for concrete. Four new rooms have been built, and the completed structure now boasts of three commodious and independent operating rooms.

The course of lectures for the Training Class is given by the following doctors: Dr. W. A. Briggs, Dr. G. E. Simmons, Dr. J. H. Parkinson, Dr. Henderson, Dr. G. L. Stevenson, Dr. J. W. James, Dr. E. C. Turner, Dr. G. L. Simmons, Dr. T. J. Cox, Dr. G. W. Dufficy, Dr. Chas. McKee and the Resident Physician, Dr. F. E. Shaw.

BACTERIOLOGICAL
BIOLOGICAL
PATHOLOGICAL
CHEMICAL (Hygienic)

Special Attention Given to Medico-Legal and Toxicological Work

Material Results in Pulmonary and Bronchial Affections with the aid of Thiocol 'Roche,' the constitutional antiseptic.

In Tuberculosis—"No other medicament produces such striking results." (*Prof. Maramaldi*). "Surpasses all other methods of treatment that I have tried during the thirty years I have been in practice." (*Dr. Wagner*.)

In Bronchitis—"Remarkably efficient; it diminishes and alters the character of the secretion, allays the cough, and finally brings about a complete cure." *Dr. Braun*. "The best remedy for bronchitis I have ever used." *Dr. Bauer*.

Equally good reports of its use in pulmonary abscess, catarrhal affections, coughs and colds, intestinal fermentation, typhoid fever and diarrhea.

The reason why is told in our literature, which, together with samples, may be had in return for a post-card request.

Be sure you get THIOCOL when you prescribe it. Specify Roche.

Lane Hospital Announcement

Lane Hospital has recently been enlarged, renovated, and improved. A story has been added, increasing the capacity to one hundred and seventy-five beds. The operating rooms have been remodeled and a new top-lighted and thoroughly equipped laparotomy room added. The new arrangements increase the convenience and double the capacity of the surgical department, while the same high standard of efficiency in the operating room service will be maintained as in the past.

A Maternity Department has been established, consisting of a number of well-lighted, isolated rooms, in close relation to a completely equipped delivery room.

Two Children's Wards have been opened, and particular attention will be paid to the care and nursing of children.

The Eye and Ear Department has been provided with special wards, special nurses and separate treatment rooms.

The X-Ray Department is located in the new portion of the hospital and has been provided with every convenience for examination, treatment and laboratory work. An entirely new set of the latest and most efficient apparatus has been installed.

Roof Garden. A special feature of the recent addition is a well-protected roof garden where convalescents may enjoy fresh air and sunlight and where patients may be given the benefit of outdoor treatment.

While the Faculty of Cooper Medical College acts as a medical and surgical staff to the hospital, the privileges of the institution are freely open to all regular physicians in good standing. Physicians having patients in Lane Hospital are assured of every professional courtesy.

Communications may be addressed to the resident physician.
